NOVEMBER 2024 | Virtual Enterprise

WHO ARE WE?

Welcome to our first year of Virtual Enterprise founded in September of 2024 at Greenport High School. At AuraSleep, we believe that a great day starts with a great night's sleep. Our mission is to change the way people experience rest by creating one of the best sleeping beds that is combined with the newest technology to create the best experience for everyone.

Aura Sleep is dedicated to making products that not only promote better sleep but also enhance overall well-being. We understand the importance of quality sleep in today's fast-paced world. People are always busy every day by having to wake up early in the morning, having sports, and feeling exhausted the next morning but our product, the Aura Bed is designed to provide support, comfort, temperature regulation, and durability ensuring you wake up refreshed. We do plan on continuing to add new advancements in sleep technology, focusing on better sleep for people and ensuring that they are satisfied with our product by allowing them to customize their preferences with our bed product Aura Bed.

Join us on our journey towards better sleep and experience the difference with AuraSleep: Advanced, Unique, Rejuvenating, Adaptable sleep technology!
